Koch Fertiliser Ltd. Moves Offices To Marlborough Business Park

Marlborough, Wiltshire – Koch Fertiliser Ltd. has relocated its offices from Tidworth to the Marlborough Business Park in Wiltshire.

“This move gives us improved access to transportation near the M4 corridor,” said John Ridd of Koch Fertiliser Ltd., “and our close proximity to Swindon will serve as a good base for recruiting future employees, service contractors and consultants.”

The company established temporary offices in Tidworth last year when a subsidiary of Koch Fertilizer, LLC acquired certain assets of the fertiliser importing, blending and marketing firm Usborne Fertiliser Limited.

“Establishing our new offices in Marlborough positions Koch Fertiliser to better serve customers and add value in the markets we serve in the U.K. and Ireland,” said Jim Sorlie, senior vice president, supply and trading, for Koch Fertilizer, LLC.

The company’s new address is 1 Woodstock Court, Blenheim Road, Marlborough, Wiltshire, SN8 4AN. The office number is 01672 518290. The fax number is 01672 518299.

Koch Fertiliser, Ltd. is a subsidiary of Koch Fertilizer, LLC (www.kochfertilizer.com). Koch Fertilizer and its affiliates produce, distribute and globally market nitrogen fertilizers, including anhydrous ammonia, urea, nitric acid, UAN solutions, ammonium nitrate solution, ammonium polyphosphate and ammonium thiosulfate. The companies’ fertilizer interests have the capability to manufacture, market and distribute more than 9 million metric tons of nitrogen products annually.
